

# Extend your tip... not your day!

The UNIQUE and patented Olsen Extendable Pencil gives you CONTROL to extend the length of the blade electrode in your Electrosurgical Pencil from 2½"–5½" without the need to change multiple electrodes throughout the procedure.

**Available with:**

Blade Electrode.....Code: 75800

Blade Electrode, Holster & Tip Cleaner.....Code: 75802

## THE BENEFITS

- Easily adjusts to the precise length desired from 2½" to 5½"
- Midas Touch® non-stick, highly conductive coating allows reduced power settings of 20-50%, less thermal damage and Smoke Generation, and cleans easily with a wet sponge
- Eliminates the need for extenders and increases efficiency in operating time.
